---

## Summary

Expert Front-end developer, passionate back end developer & designer.

## Specialties

I specialize in creating and designing opinionated websites and applications.

---

## Experience

### **Web Developer at Canonical Ltd.**

July 2008 - Present (2 years 7 months)

Font end development and design for Ubuntu One.

### **Web Designer at Element Fusion**

January 2008 - April 2008 (4 months)

From concept, to Photoshop, to Xhtml / CSS I designed sites for clients using Element Fusions internal CMS products.

*1 recommendation available upon request*

### **Developer Extraordinaire at Page12.com, inc.**

August 2007 - December 2007 (5 months)

Development and creation of systems and websites for ideas and projects both internal and external.

*1 recommendation available upon request*

### **Web Developer at Chisano Marketing Group**

April 2007 - August 2007 (5 months)

Member of a 4-5 person web team, 1 Flash / Coldfusion / Php Guru, 1 jr. designer, 1 sr. designer, myself, and a manager. Responsibilities include initial design and development of templates design for full sites, as well as dedicated (x) HTML / CSS construction.

*1 recommendation available upon request*

### **Web Designer at Offer Lab, LLC**

August 2006 - April 2007 (9 months)

Design and development of websites and applications to support "You too can make money online" style business. Worked with external developer to create a blogging platform for our customers built on top of the multi-user version of Wordpress.

### **Training Specialist at Accent Marketing, Lake County**

June 2005 - August 2006 (1 year 3 months)

I trained classes of CSR's for contracted Sprint Mobile Customer Care. This included management of between 15 - 25 employees for 6 - 9 weeks during their first months at the work site (Lake County, Florida location) as well as performing various reporting and uptraining for the rest of the call center.

---

## Education

**University of Central Florida**

2000 - 2002

---

## Interests

Open source, django, python, the command line™, design, standards compliant front end development, jQuery

## 3 people have recommended Joshua

"My time working with Josh at at Element Fusion, as well as what I've seen of him and his personal work, convinces me he is a very talented designer. He's very passionate about his work, and I can only hope for the chance to work with more developers like him in the future."

— **Ryan Imel**, *Web Developer, Element Fusion*, worked directly with Joshua at Element Fusion

"Josh is detail oriented and well rounded. His web experience ranges from custom development to great design utilizing web standards. He would be a great addition to any company."

— **Phillip Palmieri**, *Co-Owner/President, page12.com, inc.*, managed Joshua at Page12.com, inc.

"Aside from being a general peach of a guy, Josh is always on the razor's edge of new Internet trends and technology... A total joy to work with and I hope our professional paths will soon cross again."

— **Tyson Willey**, *Web Developer, Chisano Marketing Group*, worked directly with Joshua at Chisano Marketing Group
